Professional Summary

Native Bengali speaker and full-stack developer helping build better AI for the global South. I bring native-level Bengali cultural context to AI training, voice, and annotation work, backed by real software engineering credentials (React, TypeScript, Supabase). Available 20-30 hrs/week for remote AI training, voice recording, and annotation contracts. BSc in Computer Science, builds AI agent systems professionally.

Core Skills

Bengali (Native) | English (Fluent) | AI Training & Annotation | Voice Recording | React 19 / TypeScript / Supabase / Node.js | Technical Writing | Remote Collaboration (async)

AI Tools: Hermes Agent (multi-agent orchestration), Gemini, OpenRouter, Groq APIs. Daily user of LLM workflows for content and data generation.

Proof of Work (Deployed)

- BugSmasher - Full-stack arcade game (React 19 + TypeScript + Supabase) with auth, XP progression, real-time global leaderboards. Shipped in 2 weeks. Source: github.com/FahadIbrahim93/BugSmasher-HopeTheory
- RollON - Custom e-commerce platform (React + TypeScript + Tailwind) with cart, checkout, admin dashboard. Live: rollon-delta.vercel.app
- AI Agent Workflows - Hermes Agent multi-profile system integrating 15+ LLM providers with automatic failover. Used daily to automate real business operations across ventures.

Founder & AI Training Lead - Hope Theory

2023 - Present | Dhaka, Bangladesh (Remote)

- Run Bengali AI training, voice recording, and annotation workflows for emerging-market LLM projects
- Built Marjahans (e-commerce) and SnapTrap (streetwear) - end-to-end product, brand, and operations
- Deploy AI-agent automation (Hermes Agent) to run business operations; daily user of Gemini, OpenRouter, Groq

2024 - Present | Remote

- Ship production React/TypeScript apps end-to-end: architecture, implementation, testing, deployment (Vercel)
- Integrated AI coding agents into build loop, cutting dev time ~60%
- Manage full software delivery independently across multiple concurrent projects

B.Sc. in Computer Science & Engineering

Ahsanullah University of Science and Technology, Dhaka | 2012 - 2017

Availability

Open to remote AI trainer, voice, annotation, and localization contracts. 20-30 hrs/week. Based in Dhaka, Bangladesh (GMT+6), comfortable working across time zones. Immediate start available. Equipment: Windows 11 workstation, fiber internet, UPS backup, quiet workspace.
